Perfect Solution for Concrete Batching Plant and Aluminium Formwork System

COMPANY
OVERVIEW

Nilkanth Engineering works is India's leading concrete batching plant and Aluminium Formwork System manufacturer and exporters, with over four decades of expertise, has built a legacy of trust and innovation. company has been able to provide innovative solution to the ever changing needs of the construction industry throughout the globe. Concrete Batching plant are available in both high and low volume production Capacity and models are immensely designed with the modern technology principal to give custom layout piece of equipment in machinery.

Our team at Nilkanth Engineering Works has extensive experience and professional expertise, allowing us to offer a userfriendly, economical, and easy-to-maintain equipment range. We take pride in providing products with precise specifications requested by clients and adhering to industry standards. We are thrilled that our 75+ Concrete Batching Plants have already been exported to various countries, with over 1250+ plants supplied in India.

At Nilkanth Engineering Works, we are dedicated to engineering realistic solutions that exceed our clients' expectations. Our commitment to quality and customer satisfaction has allowed us to establish ourselves as a leader in the industry.

Cutting-edge
Machinery Quality

We continuously adapt our latest machinery to the changing needs of the construction industry and rising standards to ensure our clients remain ahead of their competition.

Adaption of Latest
Technology

We've embraced advanced technology and built an automated control panel for quick and easy operation. Our goal is to stand out from competitors and deliver distinctive outcomes across all aspects of our business.

Reliable Imported
& Standard Parts

Our Concrete Batching Plants incorporates high-quality imported and standard parts to ensure exceptional longevity, with minimal downtime and maintenance costs.

Fast After – sale
Services

We understand the pain of machine breakdown and Our expert staff is quick to respond and provide quality after-sale services to reduce client downtime and ensure satisfaction.

MOBILE/COMPACT CONCRETE BATCHING PLANT

INLINE 3 BIN – PAN MIXER

CAPACITY: 30,45,60 CU.M /HR

Technical Specifications:

Model	NE-30 MP/CP 3	NE-45 MP/CP 3	NE-60 MP/CP 3
Capacity	30 M ³ /HR	45 M ³ /HR	60 M ³ /HR
Batch Capacity	0.5 M ³	0.75 M ³	1.0M ³
Hoppers	3	3	3
Storage Capacity	25 M ³	25 M ³	35M ³
Mixer Type	Pan	Pan/Twinshaft	Pan/Twinshaft
Cement Bin	1.5 Tons	2.0 Tons	2.0 Ton
Discharge Height	1.5 Mtrs	1.5 Mtrs	1.5 Mtrs
Power Required	65.0 HP	80.0 HP	90.0 HP
DG Required	82.5 KVA	100 KVA	125 KVA

Smart Plants. Solid Results
